

MOOC 2

Week 1

Dr Kate Devlin

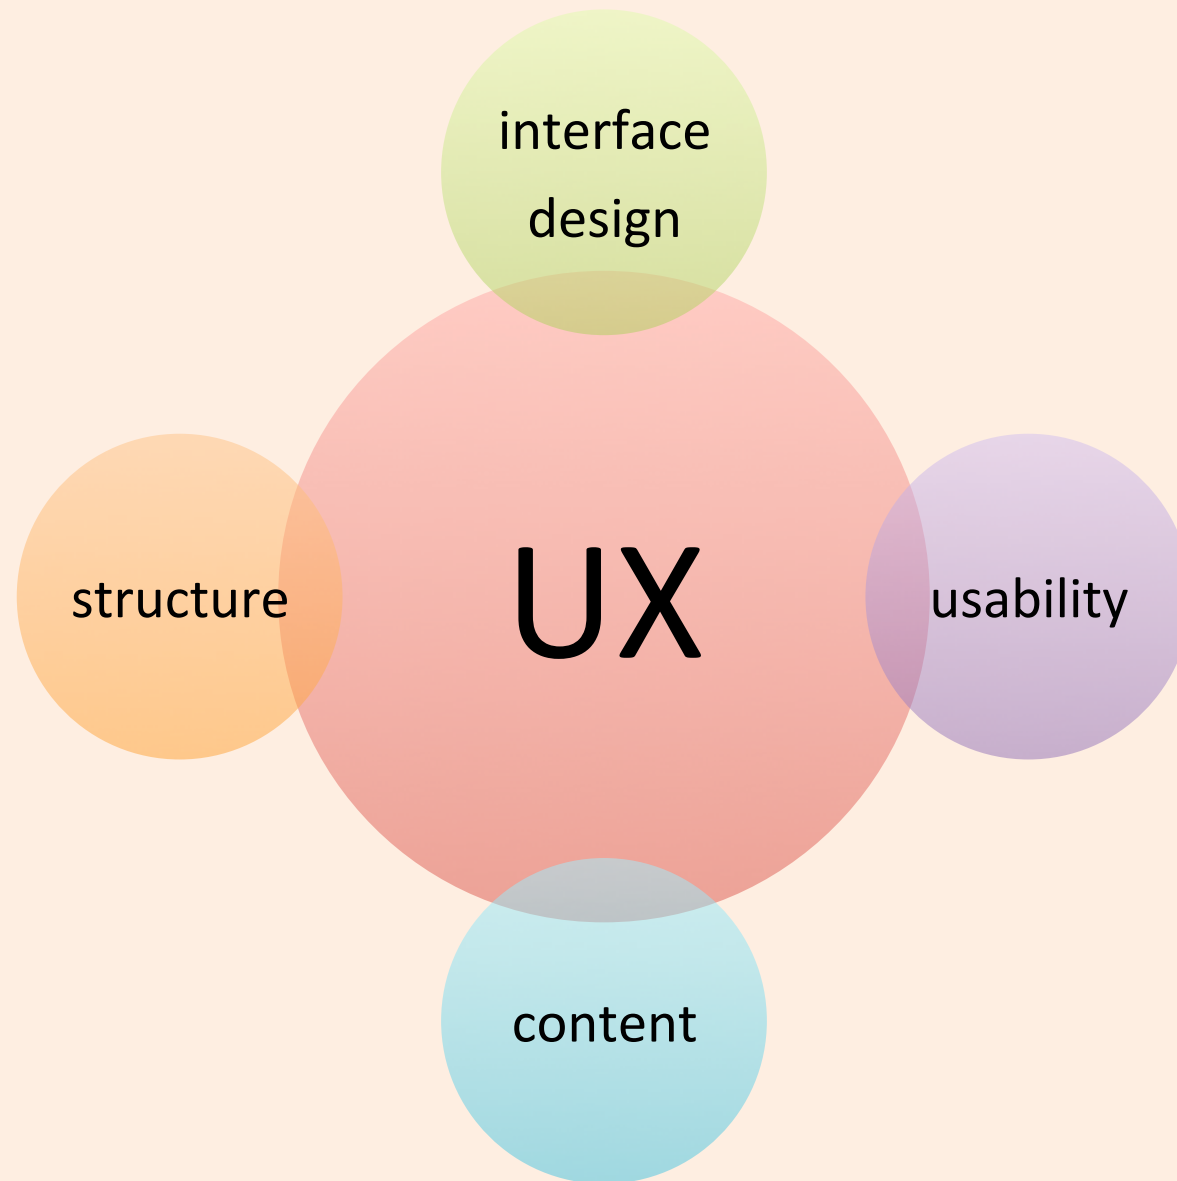

Usability and User Experience

- **Usability** is about how usable a website is:
efficient, memorable, learnable
- **User experience (or UX)** is subjective – it's how the user feels about a website:
happy, frustrated, bored

good usability + good design = good UX

Know your audience

- Who is your user?
- Design for them!
- There may be more than one type of user.

Where am I?

Where am I?

Where
can I go?

What is here?

Where am I?

Wireframing

- Plan your layout!
- Go simple: paper and pen.
- Revise it; use it or through it away!

Where can I go?

Where am I?

Where can I go?

What is here?

Navigation

- Hierarchical
- Global
- Local

Navigation

- Effective navigation is crucial
- Before you can plan where people can go, you'll need to know the site architecture
- Take the time to plan out a **site map**

Goldsmiths, University of London

We're a small campus community with a global reach, bringing learning to life through powerful conversations and personal connections. From the moment you enrol you'll be part of a powerful legacy of learning. We've a rich academic history, but we're also known for our creative approach.

Why study with us?

We are small but mighty – a close-knit community that comes from every corner of the world, which makes for a diverse learning experience (and plenty of stimulating conversation). We take an interdisciplinary approach to all our degree courses, which means you won't find our subjects prescriptive and you won't find our teaching dull either. You'll be taught by and will debate with the best in the field: the people

Address
Goldsmiths, University of London
New Cross
London SE14 6NW

Accessibility

Accessibility

- What is accessibility?
- What is Web Accessibility Initiative?
- What kind of things can you do to make a site accessible?
- How can you check your site to make sure it is accessible?

Accessibility and disability

- Web accessibility encompasses all disabilities that affect access to the Web, including:
 - visual
 - auditory
 - physical
 - speech
 - cognitive
 - neurological

W3C's Web Accessibility Initiative
